SEED PROJECT

EDUCATIONAL AND BASIC NEEDS TO THE CHILDREN IN RURAL AREAS

SEED PROJECT

EDUCATIONAL AND BASIC NEEDS TO THE CHILDREN IN RURAL AREAS

OUR ACTIVITIES

We have been providing educational and livelihood assistance to underprivileged, poor, simple and first generation students since 2014 through our “Uthirathin Uthavigal Charitable Trust”. The services we provide are...

1. We have been providing food, education and medical assistance to children who are destitute, poor and do not have a mother and father or have one or both. So far we have helped over 500 students.

2. For School dropouts, we are helping them to continue their education again. So far we have helped over 100 students.

3. Last year (2020) 1.53 lakh people committed suicide in India. This number is higher than the number of deaths from the Corona cases. According to information provided by the National Crime Records Bureau, Tamil Nadu ranks 2nd in suicides. We provide Psychological counseling and guidance on behalf of our Charitable Trust.

4. In order to love the country and the people, to serve the country and to create honest government officials, we are offering donations and free training for competitive examinations (for UPSC / TNPSC exams) under the name of “Sirpigal Payirchi Maiyam”-Chiselers Academy, So far more than 1000 students are benefiting and studying. Students from all over Tamil Nadu are training with us. When the time comes, many of them will succeed and serve the Indian nation and people.

5. We have been providing educational and professional assistance to uplift the livelihood of poor family women who have lost their husbands and have been abandoned by their husbands. Through this their environment and future are changing. By training them for competitive examination and by providing them sewing machine, they are able to raise their standard of living. Hope for life is planted in their minds through this.

6. We are assisting the needy families of food through our “Uthirathin Uthavigal Charitable Trust”. Currently, we satisfy the hunger of at least 100 people a month as much as we can. As the love and cooperation of good souls increases, so does the number of hungry people gets satisfied.

7. Every year when there is a flood of rain we do emergency relief work on behalf of our “Uthirathin Uthavigal Charitable Trust”. This year on November 10,11,12, 2021 we provided food, candles, blankets, bread and medical assistance to 250 families affected by the Chennai floods. Many were delighted and expressed their gratitude.

8. On behalf of our **SIRPIGAL IAS ACADEMY**-Chiselers Academy, we are running tuition to raise the standard of education of students in North Chennai and to teach them discipline, ethics and livelihood. Those who can will donate as much as they can to our educational service. For poor, first generation and government school students, free education is provided. Under our guidance many students are moving away from immoral life and preparing themselves for engineering, medicine, arts and sciences, law, Indian civil service, Indian police service etc.

9. Not everyone can learn through Schooling education. Some undergraduate students will be involved in vocational education. Such students are provided with free computer education and training, type writing training on behalf of our “Uthirathin Uthavigal Charitable Trust”. This raises the standard of many first generation and underprivileged poor students. So far more than 100 students have benefited through this.

10. Nature is the source of our life. On behalf of our “Uthirathin Uthavigal Charitable Trust” we are raising awareness about the necessity and need of nature for the younger generation to come. We have been doing services on behalf of our “Uthirathin Uthavigal Charitable Trust” such as planting saplings, teaching others the good things of tradition, teaching purity, and doing field work related to it. So far more than 1000 saplings have been donated and planted by our team. We have also created awareness based on it.

11. The need for blood for life is essential and unpredictable. The hospital needs blood for an unforeseen accident or emergency surgery. Without looking at any human difference, only blood is given from one to another. Blood donations are made each year on behalf of our “Uthirathin Uthavigal Charitable Trust”.

We provide food, education and medical assistance to children who are destitute, poor, orphans or semi-orphans. So far we have helped over 500 students. It is our desire that feeding the hungry should be the basic task of each of us. Since 2014 we have been visiting some orphanages on behalf of our “Uthirathin Uthavigal Charitable Trust” and talking to the children there and interacting with their basic needs like food, clothing, education, medicine, etc. In this way we are able to understand the feelings and needs of those children. There can be no better thing than to give the confidence to one that “I am for there you”. It was that hope that we began to sow in the minds of those children. The basic need of man is food, education, medicine. It is for the outer body. The needs of our inner mind are different.

Last year (2020) 1.53 lakh people committed suicide in India. This number is higher than the number of deaths caused by the cases admitted for Corona. Tamil Nadu ranks 2nd in suicides, according to information provided by the “National Crime Records Bureau”. Such deaths is caused by suicide include family problems, unemployment, financial problems, love failure, exam failure, illness, mental health problems, depression, and sexual harassment. But it is a psychological fact that behind every suicide there is someone's negligence and carelessness. More importantly, it is a sad fact that 60% of those who commit suicide each year are educated ones. We provide Psychological advices and guidance on behalf of our “Uthirathin Uthavigal Charitable Trust”. So far they have come out of that suicidal mindset.
